

VIEL JASMIN M. ENERIA

0907 627 5885 | diapolitvieljasmin@gmail.com | Antipolo City, Rizal

SUMMARY

Computer Engineering graduate with hands-on experience in networking, system monitoring, and technical documentation gained through on-the-job training. Skilled in configuring network devices, monitoring system performance, organizing technical records, and maintaining data accuracy. Knowledgeable in Python, Java, HTML, and SQL, with the ability to adapt quickly and work effectively in team-oriented environments. Motivated to apply technical knowledge and problem-solving skills in a professional setting while continuously learning and improving in the field of technology.

EDUCATION

STI College Ortigas-Cainta

BS in Computer Engineering

Ortigas Ave. Ext., Cainta

2022 - Present

San Isidro National High School

TVL – ICT | Computer Systems Servicing (CSS)

C. Lawis Ext. St., Antipolo City

2020 - 2022

TECHNICAL SKILLS

Programming

- Python
- Java
- HTML / CSS
- SQL (Introduction to SQL — Sololearn, Mar 2026)

Networking

- TP-Link Omada System Configuration
- Network Troubleshooting & Monitoring (Ruijie Cloud)

Hardware

- Arduino Microcontroller Systems
- PCB Design
- Soldering
- LAN Cabling (RJ45 Crimping & Testing)

Tools

- TCP/IP Fundamentals & Network Protocols
- Onshape (3D CAD) & EasyEDA (PCB Design)

PROFESSIONAL EXPERIENCE

OJT Trainee – iOne Resources, Inc.

The Centerpoint Bldg., J. Vargas Ave, cor Garnet Rd, Ortigas Center, Pasig

February 2026

- Maintained and updated project records by systematically cross-checking uploaded files against master lists, identifying and resolving data discrepancies to ensure accuracy across all site reports.
- Assisted in the deployment and configuration of enterprise network devices including TP-Link switches, routers, and Wi-Fi 6 access points across DepEd school installations.
- Configured TP-Link Omada enterprise systems including SSID management, captive portal, URL filtering, port blocking, IP configuration, and AP isolation to maintain secure, policy-compliant connectivity.
- Performed RJ45 cable crimping and LAN cable testing for site infrastructure deployment, ensuring network connectivity met installation specifications.
- Monitored real-time network performance and device downtime via Ruijie Cloud platform, compiling data for DICT monthly compliance reports.
- Verified bandwidth performance at all Phase 2 sites, confirming ≥ 40 Mbps download, ≥ 10 Mbps upload, and < 100 ms latency against government-mandated requirements.
- Automated repetitive Excel-based office workflows using Google Apps Script and Selenium, reducing manual processing time for internal reporting tasks.
- Identified and resolved data inconsistencies including duplicate files and incorrect uploads, improving data integrity across multi-site project records.
- Supported ISO certification audit preparation by organizing, reviewing, and validating compliance documents and equipment labeling across all project files.

ACADEMIC AFFILIATION

Association of Computer Engineering Students (ACEs)
Member

STI College Ortigas-Cainta
2024-Present

CERTIFICATIONS

Introduction to Onshape Simulation
Computer-Aided Drafting
