

VIEL JASMIN M. ENERIA

0907 627 5885 | eneriavieljasmin@gmail.com | Antipolo City, Rizal

SUMMARY

Computer Engineering graduate with a solid background in technical and analytical skills. Known for being detail-oriented, adaptable, and dependable in both independent and team-based work environments. Able to manage multiple tasks, meet deadlines, and communicate effectively while maintaining accuracy and professionalism. Seeking opportunities to apply skills, gain experience, and contribute to organizational success.

EDUCATION

STI College Ortigas-Cainta

BS in Computer Engineering

Ortigas Ave. Ext., Cainta

2022 - 2026

San Isidro National High School

TVL – ICT | Computer Systems Servicing (CSS)

C. Lawis Ext. St., Antipolo City

2020 - 2022

TECHNICAL SKILLS

Programming

- Python
- Java
- HTML / CSS
- SQL (Introduction to SQL — Sololearn, Mar 2026)

Networking

- TP-Link Omada System Configuration
- Network Troubleshooting & Monitoring (Ruijie Cloud)

Hardware

- Arduino Microcontroller Systems
- PCB Design
- Soldering
- LAN Cabling (RJ45 Crimping & Testing)

Tools

- TCP/IP Fundamentals & Network Protocols
- Onshape (3D CAD) & EasyEDA (PCB Design)

CAPSTONE PROJECT

STI Ortigas-Cainta

October 2025

- Designed and built an Arduino Mega-controlled machine automating abaca fiber stripping, drying, and waste removal, reducing manual labor in traditional fiber processing.
- Implemented sensor-driven subsystems (Sharp IR, Soil Moisture, KSD301 Thermostat) to automate fiber detection, moisture monitoring, and heat regulation in a custom drying chamber.
- Achieved 100% beta test success rate across all objectives, with client satisfaction rated 5.0/5.0; reduced fiber drying time from 2–3 weeks to under 30 minutes.

PROFESSIONAL EXPERIENCE

OJT Trainee – iOne Resources, Inc.

The Centerpoint Bldg., J. Vargas Ave, cor Garnet Rd, Ortigas Center, Pasig

February 2026

- Maintained and updated project records by systematically cross-checking uploaded files against master lists, identifying and resolving data discrepancies to ensure accuracy across all site reports.
- Assisted in the deployment and configuration of enterprise network devices including TP-Link switches, routers, and Wi-Fi 6 access points across DepEd school installations.
- Configured TP-Link Omada enterprise systems including SSID management, captive portal, URL filtering, port blocking, IP configuration, and AP isolation to maintain secure, policy-compliant connectivity.
- Performed RJ45 cable crimping and LAN cable testing for site infrastructure deployment, ensuring network connectivity met installation specifications.
- Monitored real-time network performance and device downtime via Ruijie Cloud platform, compiling data for DICT monthly compliance reports.
- Verified bandwidth performance at all Phase 2 sites, confirming ≥ 40 Mbps download, ≥ 10 Mbps upload, and < 100 ms latency against government-mandated requirements.
- Identified and resolved data inconsistencies including duplicate files and incorrect uploads, improving data integrity across multi-site project records.
- Supported ISO certification audit preparation by organizing, reviewing, and validating compliance documents and equipment labeling across all project files.

ACADEMIC AFFILIATION

Association of Computer Engineering Students (ACEs)
Member

STI College Ortigas-Cainta
2024-Present

CERTIFICATIONS

Oracle Java Fundamentals
Object-Oriented Programming

STI Ortigas-Cainta
January 2023

Introduction to Onshape Simulation
Computer-Aided Drafting

Onshape
